

**FDMA410NZ Information**

For Reference Only

**Part Number** [FDMA410NZ](#)  
**Manufacturer** Fairchild/ON Semiconductor  
**Category** Discrete Semiconductor Products  
[Transistors - FETs, MOSFETs - Single](#)  
**Description** MOSFET N-CH 20V 9.5A 6-MICROFET  
**Package** 6-VDFN Exposed Pad

**Certified Quality**

Heisener's commitment to quality has shaped our processes for sourcing, testing, shipping, and every step in between. This foundation underlies each component we sell.

**FDMA410NZ Specifications**

|                                        |                                                                                         |

| Series                                 | PowerTrench?                                                                            |
| FET Type                               | N-Channel                                                                               |
| Technology                             | MOSFET (Metal Oxide)                                                                    |
| Drain to Source Voltage (Vdss)         | 20V                                                                                     |
| Current - Continuous Drain (Id) @ 25°C | 9.5A (Ta)                                                                               |
| Drive Voltage (Max Rds On, Min Rds On) | 1.5V, 4.5V                                                                              |
| Vgs(th) (Max) @ Id                     | 1V @ 250µA                                                                              |
| Gate Charge (Qg) (Max) @ Vgs           | 14nC @ 4.5V                                                                             |
| Input Capacitance (Ciss) (Max) @ Vds   | 1080pF @ 10V                                                                            |
| Vgs (Max)                              | ±8V                                                                                     |
| FET Feature                            | -                                                                                       |
| Power Dissipation (Max)                | 2.4W (Ta)                                                                               |
| Rds On (Max) @ Id, Vgs                 | 23 mOhm @ 9.5A, 4.5V                                                                    |
| Operating Temperature                  | -55°C ~ 150°C (TJ)                                                                      |
| Mounting Type                          | Surface Mount                                                                           |
| Supplier Device Package                | 6-MicroFET (2x2)                                                                        |
| Package / Case                         | 6-VDFN Exposed Pad                                                                      |

## FDMA410NZ Guarantees

### Quality Guarantees

We provide 90 days warranty. \*

If the items you received were not in perfect quality, we would be responsible for your refund or replacement, but the items must be returned in their original condition.

### Service Guarantees

We guarantee 100% customer satisfaction.

Our experienced sales team and tech support team back our services to satisfy all our customers.

## FDMA410NZ Payment Methods

## FDMA410NZ Shipping Methods

If you have any question about FDMA410NZ, please do not hesitate to contact us!
