

### **NSL-5112 Information**

ww.hoisener.com

Part Number NSL-5112

Manufacturer Luna Optoelectronics Category Sensors, Transducers

Optical Sensors - Photo Detectors - CdS Cells

**Description** PHOTOCELL CDS 700OHM TO-18

Package -

# **Certified Quality**

For Reference Only

Heisener's commitment to quality has shaped our processes for sourcing, testing, shipping, and every step in between. This foundation underlies each component we sell.

# **NSL-5112 Specifications**

| Manufacturer Part Number      | NSL-5112                                      |
|-------------------------------|---|
| Manufacturer                  | Luna Optoelectronics                          |
| Category                      | Sensors, Transducers                          |
|                               | Optical Sensors - Photo Detectors - CdS Cells |
| Package                       | -   |
| Series                        | -   |
| Wavelength                    | 550nm   |
| Voltage - Max                 | 100Vpk  |
| Rise Time (Typ)               | -   |
| Fall Time (Typ)               | -   |
| Cell Resistance (Min) @ Dark  | 670 kOhms @ 5 seconds                         |
| Cell Resistance @ Illuminance | 6 ~ 14 kOhms @ 21 lux                         |
| Operating Temperature         | -60°C ~ 75°C (TA)                             |
|                               | Report errors                                 |

### **NSL-5112 Guarantees**

#### **Quality Guarantees**

We provide 90 days warranty. \*

If the items you received were not in perfect quality, we would be responsible for your refund or replacement, but the items must be returned in their original condition.

#### **Service Guarantees**

We guarantee 100% customer satisfaction.

Our experienced sales team and tech support team back our services to satisfy all our customers.

## **NSL-5112 Payment Methods**

### **NSL-5112 Shipping Methods**

If you have any question about NSL-5112, please do not hesitate to contact us!
