

**NTB18N06LG Information**

For Reference Only

**Part Number** [NTB18N06LG](#)  
**Manufacturer** ON Semiconductor  
**Category** Discrete Semiconductor Products  
[Transistors - FETs, MOSFETs - Single](#)  
**Description** MOSFET N-CH 60V 15A D2PAK  
**Package** TO-263-3, D2Pak (2 Leads + Tab), TO-263AB  
 For the pricing/inventory/lead time, please contact us

**Certified Quality**

Heisener's commitment to quality has shaped our processes for sourcing, testing, shipping, and every step in between. This foundation underlies each component we sell.

**NTB18N06LG Specifications**

|                                        |                                                                                         |
|----------------------------------------|-----------------------------------------------------------------------------------------|

| Series                                 | -                                                                                       |
| FET Type                               | N-Channel                                                                               |
| Technology                             | MOSFET (Metal Oxide)                                                                    |
| Drain to Source Voltage (Vdss)         | 60V                                                                                     |
| Current - Continuous Drain (Id) @ 25°C | 15A (Tc)                                                                                |
| Drive Voltage (Max Rds On, Min Rds On) | 5V                                                                                      |
| Vgs(th) (Max) @ Id                     | 2V @ 250µA                                                                              |
| Gate Charge (Qg) (Max) @ Vgs           | 20nC @ 5V                                                                               |
| Input Capacitance (Ciss) (Max) @ Vds   | 440pF @ 25V                                                                             |
| Vgs (Max)                              | ±10V                                                                                    |
| FET Feature                            | -                                                                                       |
| Power Dissipation (Max)                | 48.4W (Tc)                                                                              |
| Rds On (Max) @ Id, Vgs                 | 100 mOhm @ 7.5A, 5V                                                                     |
| Operating Temperature                  | -55°C ~ 175°C (TJ)                                                                      |
| Mounting Type                          | Surface Mount                                                                           |
| Supplier Device Package                | D2PAK                                                                                   |
| Package / Case                         | TO-263-3, D2Pak (2 Leads + Tab), TO-263AB                                               |

## NTB18N06LG Guarantees

### Quality Guarantees

We provide 90 days warranty. \*

If the items you received were not in perfect quality, we would be responsible for your refund or replacement, but the items must be returned in their original condition.

### Service Guarantees

We guarantee 100% customer satisfaction.

Our experienced sales team and tech support team back our services to satisfy all our customers.

## NTB18N06LG Payment Methods

## NTB18N06LG Shipping Methods

If you have any question about NTB18N06LG, please do not hesitate to contact us!
