| Туре                      | -                                      |
| Material - Core           | Ferrite                                |
| Inductance                | 10mH                                   |
| Tolerance                 | $\pm 5\%$                              |
| Current Rating            | 54mA                                   |
| Current - Saturation      | 11mA                                   |
| Shielding                 | Shielded                               |
| DC Resistance (DCR)       | 137 Ohm Max                            |
| Q @ Freq                  | 50 @ 250kHz                            |
| Frequency - Self Resonant | 1MHz                                   |
| Ratings                   | -                                      |
| Operating Temperature     | -55°C ~ 125°C                          |
| Frequency - Test          | 250kHz                                 |
| Features                  | -                                      |
| Mounting Type             | Surface Mount                          |
| Package / Case            | Nonstandard                            |
| Supplier Device Package   | -                                      |
| Size / Dimension          | 0.520" L x 0.250" W (13.21mm x 6.35mm) |
|                           |  |

0.230" (5.84mm)
